### When Work Is Hard

That kidney troubles are so common is due to the strain put upon the kidneys in so many occupations, such as:

Jarring and jolting on railroads, etc.
Cramp and strain as in barbering, moulding, heavy lifting, etc.
Exposure to changes of temperature in iron furnaces, refrigerators, etc.
Dampness as in tanneries, quarries, mines, etc.
Inhaling poisonous fumes in painting, printing and chemical shops.
Doan's Kidney Pills are fine for gtrengthening weak kidneys.

Farmers in Western Canada are paying for their land holdings with the proceeds of last year's crop. That this is no idle statement may be gleaned work while you sleep-a 10-cent box from the three following items, which

"In the spring of 1916 a half-section of land was offered for sale at \$17.00 per acre. There were 105 acres of summer-fallow, which because the owner could not at the time find a buyer, were seeded to wheat. A yield of 40 bushels per acre, 4,200 bushels all told, grading No. 1, was obtained. The price the day the grain was sold (which was very early in the season, before grain prices advanced to round about \$2.00) was \$1.60, which brought the handsome total of \$6,720.00. Three hundred and twenty acres at \$17.00 equals \$5,440.00, so that a buyer, by placing less than half of the whole Claus wise, but they know he is a man under crop, would have made a profit of \$1,280.00." - Robson Messenger, Robson, Sask.

"That the 'Indiana Boys' farm this year raised sufficient crop to pay for the land, all the machinery and all overhead expenses as well as make a handsome profit, is the information given by N. B. Davis, the manager. The wheat yield was over 22,000 bushels. Of twelve cars already sold, nine graded No. 1, and Mr. Davis has sold over 2,000 bushels locally for seed at \$2.00. Naturally, when he gets to Indiana he will be a big booster for Alberta."-Bassano Mail, Bassano, Alta.

"Oscar Castalor, who bought land at Blusson after the crop had been put in last spring, for \$3,800.00, has threshed 3,900 bushels of wheat, which is worth at present prices about \$7,500.00. He refused an offer of \$5,000.00 for the land after the crop had been taker off."-Lethbridge Herald, Lethbridge, Alta.

Reports from the wheat fields are highly encouraging and show that the wheat crop of many farmers in Western Canada was highly satisfactory. Coblenz, Sask .- W. A. Rose has threshed an average of 33 bushels per

acre and 83 bushels of oats. Gleichen, Alberta.-Up to date 237,by local elevators, of which nearly 180,000 bushels were wheat. Seventyone cars of grain have already been

Stoop Creek, Sask .- James McRae has threshed 5,400 bushels of grain, 2,000 bushels of which were wheat, grading No. 1 Northern. One field averaged 44 bushels per acre, and a

large field of oats averaged 83 bushels. If information as to the best location is required, it will be gladly furnished by any Canadian Government Agent, whose advertisement appears elsewhere.-Advertisement.
